TREVOR WILSON

TECHNICAL DIRECTOR, TEAM MANAGEMENT & AUDIO ENGINEER

PROFILE

As a multi-faceted talent, Trevor spent his career managing teams, event planning, producing and performing music, and uplifting others around him. A technical director, manager, audio engineer, composer, producer, performer, director and visual artist. With a sharp eye, trained ear for detail, and a kind heart he effectively communicates with and leads creative teams in accomplishing their goals with excellence!

PROFESSIONAL EXPERIENCE

Technical Director

Heat Convention and Competition (National) 2021 - 2026

- Manages a team of technicians for building and implementing the conventions stage and aesthetic and maintaining consistency in 20 cities through the season.
- Communicates with venues, planners and on-site staff before and during events, providing required documents and client satisfaction.
- Makes important snap decisions to ensure quality of convention, perceive, and navigate possible roadblocks, and solve any issues as they arise.

Live Engineer

Jordan Kahn Music Company (National) 2020 - Present

- Travels nationally and internationally to engineer high profile performers for luxury events and multi-million dollar weddings.
- Partners with elite event planners and staff to execute and produce, polished, high energy events of expectational quality, sound, and experience for patrons and event goers.

Studio Engineer

2018 - Present

- Work from professional home studio and professional spaces to track, record, mix and master studio albums for artists in the Denver and Dallas area.
- Engineer high-quality audio for albums, commercials and multi-media products using industry standard equipment, software and production techniques.
- Partner with artists and creatives to craft compelling, high-quality audio experiences that meet both artistic and technical standards.
